13	Local Appropriations for Public Schools as a Percent of Net Taxable Income and Percent of Assessed Valuation: Plus Net Taxable Income: Maryland Public Schools: 1981-82

INTRODUCTION

Selected Financial Data is prepared annually from information contained in the Annual Financial Reports submitted by each of the 24 local education agencies (LEAs) in Maryland. These reports, authorized under the Public School Laws of Maryland, Section 2-205, Section 5-109 and Bylaw 12.02.01, dictate a uniform format for reporting LEA finances to the Maryland State Department of Education. A manual entitled the Financial Reporting Manual was developed to further define the reporting requirements as contained within the law and to enable a collection of financial data which will conform to federal and state reporting requirements.

FINANCIAL REPORTING, IN BRIEF

LEAs are legal entities which exist to operate schools or contract for educational services. In Maryland, these school units are coterminous with the boundary of the political subdivision; i.e., the 23 county governments and the Baltimore City government. These school systems have no taxing powers and must compete with other county or city agencies for funds to provide educational services. Local funds for education are made as appropriations for specific purposes; and to assure that these purposes are adhered to, separate funds must be maintained to account for the monies. Maryland recognizes 6 funds in addition to a special account for keeping track of fixed asset. Following are a list of the funds and a brief description of each:

(1) The Current Expense Fund contains all accounts for general, routine current operations. Maryland presently has 12 categories into which current expenses are reported - Administration, Instruction, Student Personnel Services, Health Services, Student Transportation, Operation of Plant, Maintenance of Plant, Fixed Charges, Food Services, Community Services, Special Education and Capital Outlay. Some of these categories are further divided into specific functions, but each of the categories requires some or all of the following object of expenditure detail; salaries and wages, contracted services, supplies and materials, other charges, replacement and additional equipment, and outgoing transfers. Subobject details are required for specific accounts and expenditures for the categories of Instruction, Special Education and Administration require details to isolate expenditures for particular services, e.g., business support services vs centeralized support services, regular instruction vs expenditures for gifted and talented students, and itinerant special education services vs expenditure for resource rooms.

(2) All transactions relating to major school construction or remodeling are accounted for in the School Construction Fund. Expenditures are accounted for as follows: purchase of sites, site improvements, buildings and building additions, remodeling, additional equipment, and other construction expenditures. In Maryland, the State has the responsibility of funding school construction and local school systems may supplement these funds to provide facilities in excess of those which are State approved.

(3) The Debt Service Fund accounts for the systematic repayment of principal and interest on debt. Although Maryland LEAs do not have the authority to issue bonds for school construction, they may be responsible for handling repayment of debt.

(4) The Food Service Fund accounts for operations required to provide meals to students and staff in schools; i.e., operating kitchen equipment, preparing and serving food, cleaning and storing equipment, and delivery services.

(5) The Student Activities Fund is for the purpose of accounting for funds which are owned, operated, and managed by the student body under the guidance of the LEA staff, e.g., extracurricular activities, school stores, etc.

(6) The Trust/Agency Fund accounts for assets held in trust by the LEA for some other agency.

HIGHLIGHTS FOR FY 1982

Due to Maryland General Assembly decisions, federal legislation and accounting policy changes inititated by the AICPA and NCGA which impact annually upon the reporting requirements for the school systems, historical continuity in reporting becomes difficult. A new Special Education category became law in 1977; and as as a result, beginning with the 1981 school year, expenditures for educating students with special needs were removed from other instructional costs as historically reported. Details of these costs are now displayed in the releases which follow. These costs were isolated for the first time beginning in FY 1981.

Also, two categories which had existed in Maryland financial reports were eliminated as categories and incorporated into other areas of reporting. Specifically, Student Body Activities was made a program area reportable in the category of Instruction, and Outgoing Transfers became an object of expenditure reportable in the appropriate category. Currently outgoing transfers apply to 3 categories—cost of educating regular students who are residents of one county but who attend school in an adjacent county due to the proximity to the out-of-district schools are reported in the category of instruction. Since these costs are duplicated with the expenditures made by the LEA who provides the service to those students, outgoing transfers are not included as an expenditure except on Table I of Part II; expenditures for food service supervisors and the staff in the LEA central office are reported as an interfund transfer to the food service fund where the costs are distributed according to the regular object detail; and, in the category of Special Education, cost of sending Special Education students to another Maryland school system or to another state are reported. Since the costs of attending in another LEA are captured in the receiving LEA, these expenditures are not included in the total Special Education cost of the sending LEA. tures

It should be noted that many of the financial details which the LEAs report are not regularly included as a part of our annual public information releases. If you have specific needs for information not contained with Selected Financial Data, we would like to hear from you to determine if we can provide the specific information you desire. Please make your request, in writing, to Mrs. Kathie Hiatt, Specialist in Financial Reporting. If you would prefer to come in and see what information is collected routinely, or if you have questions regarding this information, please contact Mrs. Hiatt at 659-2664.

DEFINITIONS

Administrtation refers to an expenditure category for reporting the general regulation, direction and control of the LEA. Activities in this category affect the LEA as a whole, not the administration of a single building or narrow phase of school activities. It generally refers to activities involving the formulation and execution of education or financial policy by the LEA.

Assessed Property Valuation is the valuation of property as determined by the appropriate local government agency for taxation purposes.

Average Daily Attendance is computed by dividing the sum of the days present of all students in the school system by the total number of days that schools are in session in a given school year. When cost per pupil data are based on ADA, kindergarten students who attend for only one-half day are counted as one-half student. ADA so adjusted is referred to as equated ADA.

Average Number Belonging - In a given school year, average number belonging or average daily membership as it is sometimes known, is computed by dividing the sum of the days present and absent of all pupils in the school system by the total number of days that the schools were in session. When cost per pupil data are based on ANB, kindergarten pupils are counted one-half when they attend school for only one-half day.

Bonded Debt is the part of the local unit debt which is covered by outstanding bonds.

Capital Outlay is an expenditure which results in the acquisition of fixed assets or additions to fixed assets.

Community Services are services, other than those for public schools and adult education, which are provided by the school or local unit for the community as a whole or some segment of the community, e.g., community recreation programs, civic activities, public libraries, programs of custody, and care of children, etc.

Debt Service refers to expenditures for the retirement of debt and expenditures for interest on debt, except principal and interest on current loans.

Federal Funds are funds received from the federal government, either directly or indirectly (as is the case with most monies which are given to the Maryland State Department of Education and distributed to the LEAs by any of several methods).

Fixed Assets are land, buildings, machinery, furniture, and other equipment which the local unit intends to hold or continue in use over an extended period.

Food Services are activities involved with the food service program of the school or local unit, including the preparation and serving of regular and incidental meals, lunches, or snacks in connection with school activities, and the delivery of food.

Fund is an independent accounting entity with its own assets, liabilities and fund balances, generally established as an account for financing specific activities of an agency's operations.

Health Services are physical and mental health activities which provide pupils with appropriate medical, dental and nurse services.

Instruction refers to activities dealing directly with the teaching of regular pupils either in the school classrooms or in any other location; or it involves other learning situations, such as co-curricular activities.

Local Appropriation is money received out of funds set aside by the county commissioners or city council for a special purpose, such as education.

Local Education Agency (LEA) is the basic administrative unit which exists primarily to operate schools. In Maryland, the LEAs coincide with the political subdivision, i.e., the 23 counties and Baltimore City.

Maintenance of Plant refers to activities which are concerned with keeping the grounds, buildings, and equipment at their original condition of completeness or efficiency, either through repairs or by replacement of property.

Nonrevenue refers to amounts received which either incur a future obligation or change the form of an asset from real and personal property to cash, thereby decreasing the net amount and value of real and personal school property.

Operation of Plant consists of keeping the physical plant open and ready for use, including cleaning, disinfecting, heating, moving furniture. caring for grounds, operating telephone switchboards, and other activities which are repeated regularly.

Revenue means an addition to an asset which does not increase any liability, does not represent the recovery of an expenditure, does not represent the cancellation or decrease in assets, and does not represent contribution of fund capital in Food Service and Student Body Activity funds.

Special Education consists of activities designed for students who through appropriate assessment, have been determined to have temporary or long-time special education needs arising from cognitive, emotional, and/or physical factors.

Student Personnel Services are activities such as attendance services, social work services or student account service which are designed to improve the students' attendance at school and prevent or solve student problems at home, the school, or in the community.

Student Transportation consists of activities involved in the conveyance of pupils to and from school activities as provided by State law, including trips between home and school, or trips to school activities.

INTRODUCTION

This release is the third in a series of 4 releases on financial data for the 24 school systems in Maryland. Part I of Selected Financial Data contains details of the sources of revenue from which the LEAs receive funds and also some indications of the districts' wealth and the relationship between this wealth and the amount spent for education. Part II displays expenditure information according to the categories defined by the Public Schools Laws of Maryland. This release, Part III, relates expenditures to the pupils who are benefiting from these outlays in addition to showing the percentage of total dollars spent for each category of expenditures. Part IV is a time series on selected items reported in Parts I, II & III.

The materials presented in Selected Financial Data are designed to provide the public at large with good, comparable, financial information about Maryland Public Schools. If you have any needs for particular data which we are not publishing, please feel free to contact Mrs. Hiatt so that we are made aware of the public needs for financial data.

SELECTED FINANCIAL DATA - MARYLAND PUBLIC SCHOOLS: 1981-82

PART III

PAGE

1 Introduction

TITLE

1 Cost Per Pupil Belonging for Current Expenses, Capital Outlay and Debt Service: Prek-12: Maryland Public Schools: 1981-82

2 Cost Per Pupil Belonging for Current Expenses: Maryland Public Schools: 1981-82

3 Cost Per Pupil Belonging for Current Expenses: Maryland Public Schools: 1981-82

4 Cost Per Pupil Attending for Current Expenses: Maryland Public Schools: 1981-82

5 Cost Per Pupil for Tuition Bylaw: Maryland Public Schools: 1981-82

6 Cost Per Pupil Belonging Excluding Federal Funds: Maryland Public Schools: 1981-82

7 Cost Per Pupil Belonging for Materials of Instruction: Textbook and Library Books: Prek-12: Maryland Public Schools: 1979-80 - 1981-82

8 Percent Distribution of Current Expenses: Maryland Public Schools: Prek-12: 1981-82

9 Percent Distribution of Day School Current Expenses: Prek-12: Maryland Public Schools: 1981-82

10 Value of Maryland Public School Property Per Pupil Belonging: 1981-82

11 Average Salary Per Teacher and Principal: Maryland Public Schools: 1981-82, 1976-77, 1971-72
